LET'S BE HONEST

A website that just “exists” doesn't bring business.

Customers check you online before they call. Here's what they see.

Ordinary website

Made once, forgotten

- ✕ **Mobile:** breaks on phones
- ✕ **Speed:** slow to open
- ✕ **Action:** no clear call button
- ✕ **Google:** hard to find
- ✕ **Updates:** need a developer
- ✕ **Result:** visitors leave quietly

Vridexa website

Built to bring enquiries

- ✓ **Mobile:** designed phone-first
- ✓ **Speed:** optimised to load fast
- ✓ **Action:** Call, WhatsApp, form
- ✓ **Google:** SEO basics built in
- ✓ **Updates:** easy admin panel
- ✓ **Result:** visitors become enquiries

Sound familiar?

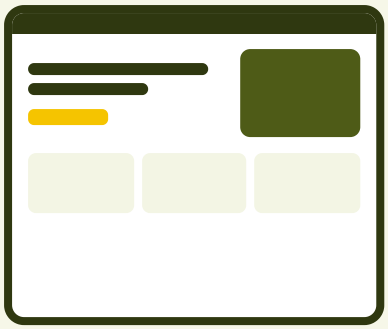

- Looks broken on a phone
- Takes forever to load
- No enquiries from the site
- Can't update it yourself

Every page gets a job:

1. Get found
2. Build trust
3. Get the enquiry
